

Tri Star Metals

BAR PRODUCTION

Delivering Stainless, Aluminum and Nickel Solutions

Tri Star Metals is a unique hybrid, a multi-location service organization supported by our own domestic mill. We leverage the strengths of our global mill partners, key alliances with specialized producers, and the capabilities of our Freeport mill to give our customers the right product for their specific application.

Tri Star offers engineered products supported by our national organization of sales and metallurgical professionals. Our regional service centers deliver your order accurately and on time to meet your critical demands.

Tri Star Metals Mill Capabilities
